Wireless Multimedia Touchpad Keyboard

K2600

The K2600 is a classic, space-saving and durable touchpad keyboard. With its integrated touchpad it is ideal for the modern, interconnected living room, offering convenient control of your media PC and Smart TV directly from the couch. Its ergonomic clean design adds

a touch of style to any coffee table, while providing easy, convenient, and instant access to important multimedia functions with the Fn multimedia keys. What's more, the 2.4 GHz wireless connection offers maximum freedom and range.

▶ Reliable 2.4 GHz wireless connection

Carefree wireless: The proven advanced 2.4 GHz standard offers you a range of up to 10 m and 360° coverage.

▶ Integrated Touchpad

No mouse, no problem: The integrated touchpad allows for convenient and easy navigation without the need for a mouse. **Perfect for Smart TVs or media center PCs.**

▶ Sealed anti-oxidation membrane

Better safe than sorry: The sealed membrane extends your keyboard's life. It prevents oxidation of the internal circuits, minimizing the risk of key defects.
