Application

ÖLFLEX® 150 CY cables are oil resistant power and control cables designed for the European, North American and Canadian market, for occasional flexible use and fixed installation subject to normal mechanical load conditions. They are among others designed for use in dry, damp and wet rooms. Outdoor use: They may only be installed with UV protection and considering the temperature range. ÖLFLEX® 150 CY cables are increased oil resistant and at room temperature they are widely resistant to acids and caustic solutions. They are suitable for non-continuously recurring movement without tensile load. Continuous operational movements, restricted guidance, usage of these cables in moving cable carriers or on motor drum guidance or under a strain of more than 15 N/mm² are not allowed. Application range: Plant engineering, industrial machinery, heating and air-conditioning systems

Design

Design

≤ 61 cores: acc. to EN 50525-2-51 resp. VDE 0285-525-2-51
> 61 cores: based on EN 50525-2-51resp. VDE 0285-525-2-51
UL AWM Style 21098 or 2587, CSA C22.2 No. 210-11

Approvals

UL AWM Style 21098 or 2587 (File No. E63634)
CSA AWM I A/B II A/B (File No. LL 53776)
≤ 61 cores:
acc. to H05VVCF4V5 acc. to EN 50525-2-51 resp. VDE 0285-525-2-51
> 61 cores:
based on EN 50525-2-51resp. VDE 0285-525-2-51

Conductor

fine wire strands of bare copper, acc. to IEC 60228 resp. VDE 0295, Class 5

Core insulation

PVC compound T12 acc. to DIN EN 50363-3 resp. VDE 0207-363-3
(UL/CSA 90°C rating)

Core identification

acc. to VDE 0293-1, with or without GN/YE ground conductor
black cores with white numbers acc. to DIN EN 50334 resp. VDE 0293-334

Inner sheath

PVC compound TM 2 acc. to DIN EN 50363-4-1 resp. VDE 0207-363-4-1
(UL/CSA 90°C rating)

Screen

braid of tinned copper, coverage = 85 % (nominal value)

Outer sheath

PVC compound TM5 acc. to DIN EN 50363-4-1 resp. VDE 0207-363-4-1
(UL/CSA 90°C rating)
colour: silver grey, similar RAL 7001

Electrical properties

Nominal voltage

U₀/U in acc. to HAR: 300 / 500 V
U acc. to UL / CSA: 600 V

Test voltage

core / core 3000 V AC
core / screen 3000 V AC
