

STREAMLIGHT®

New Streamlight Jr.® Luxeon®

2 AA size—Super-bright Luxeon power

1-Watt Luxeon LED

Actual size—only 6.5"

STREAMLIGHT JR.® LUXEON®

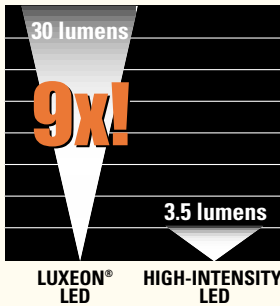

This ultra-small, lightweight flashlight gives you all the benefits of the classic Streamlight Jr.®, but now offers a Luxeon LED. So you get the brightness and range of an incandescent bulb, plus an LED that runs 50,000 hours. The Jr. Luxeon is also maintenance free. You'll never have to change the bulb or deal with bulb replacement costs. Remarkably handy, it's as compact as a pen, and offers a push-button tailcap for steady "on" and momentary on/off. Plus, with its machined aluminum construction and virtually unbreakable polycarbonate lens, it's incredibly durable.

Product Features

- Ultra-small: only 6.5"
- Lightweight: only 3.8 oz
- Incredibly durable
- Machined aluminum
- Up to 30 lumens
- 50,000-hour Luxeon LED

Streamlight Jr. Luxeon LED at a glance

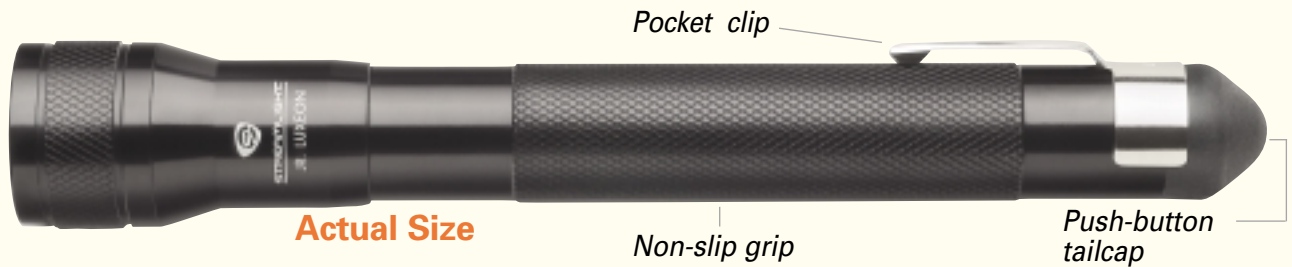

- Brightness and range of a conventional bulb
- 50,000-hour LED never needs replacing
- Virtually unbreakable

It may be small, but Streamlight Jr. Luxeon has a full list of accessories.

- Holsters
- Helmet Clamps
- Clip Holder

Unbreakable polycarbonate lens
