- Model # FFMHVP
- Package Contents: 2 harnesses & a pair of Forearm Forklift
- UPC #811938002130
- Unit Dim: 11.63" x 8.25" x 2.63"

- Used in conjunction with the Forearm Forklift Lifting Straps to encourage proper lifting techniques
- Straps employ leverage which makes the items being carried seem 66% lighter
- Save floors from scratches, dents, scuffs and scrapes that dollies and hand trucks leave behind
- Rated for items weighing up to 700 lbs
- Packages in English, French and Spanish

The reason we have a single pack (1 harness), two pack (2 harnesses) and Value Pack (2 harnesses + pair of Forearm Forklift) is because Moving Harness (MH) works in conjunction with Forearm Forklift (FF). So, if a repeat customer already owns a pair of FF and loves them, but the person helping him move would prefer to use a harness, then they're highly likely to buy our single (harness) pack. If a repeat customer already owns an FF, but he and the person helping move would newly prefer to use harnesses, then they're highly likely to buy our two pack. If a new customer has never purchased an FF and the person helping him wants to both use harnesses, then they're highly likely to buy our Value Pack. Best of all, since users can have one person using their forearm & the other using their harness or both using harnesses or both using forearms, then they're much more likely to be happy with their purchase and not return it.
