

AT892 MicroSet™ Headworn Omnidirectional Condenser Microphone

- The new quality/wearability standard for micro headset technology
- Capsule diameter of just 2.5 mm for the ultimate in low-profile, high-performance audio
- Inconspicuous, lightweight headset is ideal for applications requiring minimum visibility
- Ergonomic under-ear design—flexible, lightweight contoured loop hooks behind the ear for an ultra-secure, comfortable fit with or without glasses
- Industry-standard sound quality—extremely intelligible natural audio for stage and television talent, lecturers and houses of worship
- Rugged construction designed to meet the challenges of day-to-day use in production and theater settings
- Also available as:
 - AT892-TH** -- same as AT892, but in "theater" color (beige)
 - AT892c** -- less power module; 55" (1.4 m) cable, unterminated
 - AT892c-TH** -- same as AT892c but in "theater" color (beige)
 - AT892cL4** -- less power module; 55" (1.4 m) cable terminated for Sennheiser wireless systems using Lemo connector
 - AT892cL4-TH** -- same as AT892cL4 but in "theater" color (beige)
 - AT892cLM3** -- less power module; 55" (1.4 m) cable terminated for Sennheiser wireless systems using locking 3.5 mm connector
 - AT892cLM3-TH** -- same as AT892cLM3 but in "theater" color (beige)
 - AT892cT4** -- less power module; 55" (1.4 m) cable terminated with TA4F connector for Shure wireless systems
 - AT892cT4-TH** -- same as AT892cT4 but in "theater" color (beige)
 - AT892cT5** -- less power module; 55" (1.4 m) cable terminated with TA5F connector for ATW-U101 and Lectrosonics wireless systems
 - AT892cT5-TH** -- same as AT892cT5 but in "theater" color (beige)
 - AT892cW** -- less power module; 55" (1.4 m) cable terminated with locking 4-pin connector for A-T UniPak™ wireless systems
 - AT892cW-TH** -- same as AT892cW but in "theater" color (beige)
