GAMING BACKLIT KEYBOARD
V55

V55 is an essential keyboard for any gaming desktop. Quality components and fantastic build quality at a fair price. Thanks to the smart choice of materials this keyboard is protected against splash damage, so you can enjoy a refreshing beverage relatively risk-free during your game. With its built-in onboard memory, fully customizable keys, and the adjustable LED multi-color backlight system with 16 million colors, this keyboard offers endless gaming fun.

FULLY CUSTOMIZABLE KEYS
Customize it to suit: every key on your V55 Keyboard is individually programmable, including single, combination and macro keys – for a truly customized tool that obeys your every key press.

SPILL-RESISTANT DESIGN
Drinks allowed on your desktop: The clever design and the choice of materials protect the keyboard against splash damage.

LED MULTI-COLOR LIGHT SYSTEM WITH 16 MILLION COLORS
What does it do? It turns blue, green, or... Your V55 has an LED multi-color light system, which lets you customize the appearance of your keyboard in many ways as well as to suit your preferences. The V55 features an APM-lighting mode that reflects your actions per minute with a spectacular light show.

ONBOARD MEMORY
Built-in Flash memory can save the keyboard configuration file in the game mode. You can play the way you want, on any computer without the help of any software.
