

Description

Main body:

Aluminium extrusion, alloy AlMg Si 0.5 with integral grooves for circuit cards.

Lid:

Aluminium casting or aluminium sheet as required. All cast lids have a gasket and meet protection classification IP 65.

Type of seal:

Self-adhesive flat gasket in NBR (Perbunan) with high chemical resistance.

Front plates:

Aluminium bezel lid with self-adhesive anodized aluminium sheet front plate, 0.8 mm in thickness. Aluminium cast lid for membranes, with anodized front plate in aluminium 2 mm thick.

Attachment of enclosure:

Through rear wall in cast or flat aluminium.

Paint:

Synthetic stoved profile in silver, RAL 9006. Lid in black, RAL 9005.

Special colours on request.

Transparent cover:

Transparent cover for bezel lid in PVC, with milled fastener, or to lock, as required, to protection classification IP 65.

Special versions:

Sea-water resistant paint with corrosion-proof chromate coating (SBGL) for strongly corrosive environments on request. HF version with electrically conductive special seal to afford protection against electromagnetic interference, on request.

Special dimensions:

The enclosure profiles are of variable lengths and can also be supplied in small numbers at short notice in special lengths. (Please give length required when ordering).

Technical Data

Protection classification	IP 65 or IP 40 to DIN 40050, depending on the lid
Temperature range	-40° to +100° C lid gasket -40° to + 50° C transparent cover in PVC with moss rubber gasket -40° to + 80° C transparent cover in polycarbonate with PUR foam seal

Length of housing:
125 mm

Profile Type 07.06
Length of housing:
180 mm

Version with one cast aluminium membrane lid, transparent cover and one aluminium cast lid

Protection classification IP 65

Type	Order No.	Weight (g)
07.06	07.06 29 18	1380
07.07	07.07 29 18	2200

Version with one cast aluminium membrane lid, transparent cover and one cast aluminium rear wall mounting

Protection classification IP 65

Type	Order No.	Weight (g)
07.06	07.06 30 18	1440
07.07	07.07 30 18	2270

Accessories

Card holder (KH) to position cards at any housing depth required and prevent vibration.

Adapter (AD) to divide the interior at variable points into two or more functional compartments. Clips for terminals, relays, etc. Non-standardised card formats can be fitted. Aluminium extrusion.

Transparent cover for membrane lid (mounted)

Protection classification IP 65

Transparent cover for protective lid (mounted)

Protection classification IP 54
