Wide pressure adjustment range
Simple installation
Can be adjusted in situ
Robust construction
Can be wired for normally closed or normally open operation

Technical Data
Medium:
Compressed air, filtered, lubricated and non-lubricated
Operation:
Pressure switch, adjustable
Mounting:
Holes in switch casing
Port Size:
G½
Operating Pressure:
1-10 bar
Pressure Differential:
0.2-0.7 bar
Operating Temperature:
-10°C to +70°C
*Consult our Technical Service for use below -2°C
Switch Type:
Single pole double throw
Maximum current:
3A at 250V AC
2A at 30V DC
Maximum Cable Size:
Ø7 (nominal)
Protection Rating:
IP65
Terminal Connection
2mm push-on spade type connectors (provided loose)
Screwed earth terminal

Materials
Diecast zinc alloy casing, nitrile rubber seals.

### Warning

These products are intended for use in industrial compressed air systems only. Do not use these products where pressures and temperatures can exceed those listed under 'Technical Data'.

Before using these products with fluids other than those specified, for non-industrial applications, life-support systems, or other applications not within published specifications, consult NORGREN MARTONAIR.

Material, age, or malfunction, components used in fluid power systems can fail in various modes. The system designer is warned to consider the modes of all component parts used in fluid power systems and to provide adequate safeguards to prevent personal injury or damage to equipment in the event of such failure.

System designers must provide a warning to and users in the system instructional manual if protection against a failure mode cannot be adequately provided.

System designers and end users are cautioned to review specific warnings found in instruction sheets packed and shipped with these products.

### Adjustable Pressure Switch

Model Number: **04 0156 00**

The cover may be rotated through 180° for ease of installation.

Adjustment:

Remove cover. Use 3mm A/F key for adjustment and 13mm A/F spanner for locknut.
