

## 1. OUTSTANDING FEATURES

---

The BLUE WIPES are made out of a mixture of viscose and polyester (50/50). They are manufactured according to "Spunlace" technology. Very resistant and no fluffy, they ensure delicate maintenance heads, discs, optical and magnetic readers. Containing new fibres, they are inert to acids, bases, and the majority of solvents.

## 2. TYPICAL APPLICATIONS

---

The BLUE WIPES find their application in:

- Mechanics
- Data-processing, keyboards, screens
- Graphic Arts
- Electronic
- Food Field
- All cleaning or absorption operation...
