

Catalog Number BM Series

CLASS M SUPPLEMENTARY FUSEBLOCKS:

BM Series: For use with any 13/32" x 1-1/2" Fuses (Edison MCL, MEQ, MEN, and MOL)

Construction: Thermoplastic, UL Flammability; 94VO
Ratings: 600 Volts AC, 30 Amps

Agency Approvals:
 UL Recognized, Guide IZLT2, File E14853
 CSA, Class 6225-01, File 47235

Catalog Data (600V)

Adapter for DIN and American Rails

FEATURES:

- Edison DIN-Rail Adapters permit secure, positive snap-on mounting of Edison 0 to 30 ampere fuseblocks (one, two, or three pole) on various size rails. (Rail mounting eliminates costly and time consuming drilling, tapping, and screw mounting.)
- Molded from "Lexan™ 141" . . . a very high strength but flexible material.
- Adapter mechanically locks into mounting hole of fuseblock in seconds to become an integral part of the block.
- One adapter is required for Edison one and two pole blocks. Two adapters are required for three pole blocks.
- With the exception of the 32mm DIN-rail, all blocks with adapters can be removed from a rail simply by pulling up its release tab.
- Use of rail end-stops on both sides of adapters is recommended.

Adapter Catalog Data (For 0-30 Ampere Fuseblocks)

Fuseblock Class	Rails		Adapter	
	Type	Size	Color	Cat. No.
CC	DIN	15mm (Symm.)	Black	DRA-1
G		32mm (Asymm.)		
*H (250V)		35mm (Symm.)		
*R (250) M Type	American	17/64" (Symm.) (also 35mm DIN)	Gray	DRA-2

Package Quantities: Standard - 10; Bulk - 100 (Cat. No. BK/DRA-1 or BK/DRA-1.)

*Mounting on 15mm rails is not recommended.

NOTE: New model Edison fuseblocks have elongated block-to-adapter mounting holes (old style fuseblocks will not accept the rail adapters).
