C-HDMIX

Premium HDMI to HDMI quality 1080p cable series

Full HD 1080

HDMI® HIGH SPEED with ETHERNET

HD TVs & BluRay(tm)

Computers & networking

Intelligent homes

Broadcast & CCTV

Professional-grade HDMI connectivity series

Are you looking for a more rugged and robust HDMI(tm) cable for your specific multimedia, CCTV or computing applications?

The new LMS Data **C-HDMIX** series HDMI(tm) cables, available in either 5 metre or 10 metre lengths is your ideal choice. Featuring a newly developed, hard wearing nylon-mesh outer sheath for better crush resistance and dynamic loading when installing, together with robust HDMI(tm) strain-relief boots and gold-plated HDMI(tm) connectors for a higher connectivity ratio and improved protection against oxidation.

Advanced HDMI(tm) 1.4 specifications are also incorporated including ethernet connectivity to 100Mbps* and ACR (audio channel return)* to help reduce separate A/V and networking cables.

The **C-HDMIX** is also an ideal choice for users looking to install a permanent (i.e. within a wall cavity) HDMI(tm) solution for theatre systems and CCTV applications at home or the office.

specifications:

Triple-shielded HDMI to HDMI A/V cable - 5 and 10 metres

Rugged outer nylon mesh for improved crush resistance

Supports HDMI 1.4 specification - up to 9Gbps (approx.)

Supports HDMI High Speed with Ethernet*

Supports HDMI with ARC (audio return channel)*

Deep colour and xvYCC support for optimal image quality

1080p high-definition for both picture and sound

Ideal for longer distance HDMI cable applications

Ideal for BluRay(tm), CCTV, media centres, HD TVs & consoles

* Ethernet and ARC may not be supported by all HD devices.

CE FC RoHS COMPLIANT
