	Product Description	HellermannTyton's Out of Rack connectivity solution provides 4U of space to accommodate patch panels or additional active hardware above cabinets and racks without consuming additional floor space. It can be used as a Zone Distribution Area or Equipment Distribution Area for increased scalability. Standard 19" rack mount accepts traditional copper and fiber panels as well as RapidNet® pre-terminated solutions for swift deployment. Included universal mounting brackets provide flexibility to mount the rack in multiple positions on common ladder rack and overhead cable tray systems. This allows for improved cable routing between pathways and cabinets or racks.
