MPLAB XC32/XC32 Compiler PRO Dongle License

Part Number: SW006023-DGL

Product Overview:

The MPLAB® XC32 C/C++ Compiler is a full-featured, highly-optimized ANSI C compiler for all 32-bit PIC Microcontroller families. This compiler integrates into Microchip's MPLAB X IDE, is compatible with all Microchip debuggers and emulators, and runs on Windows®, Linux ® and macOS®.

The MPLAB XC32 PRO Compiler Dongle License unlocks the full potential and performance of all possible optimizations with the advantage of being interchangeable among workstations and highly portable – not tied to a PC or workstation. Some of its features include:

License file is installed on a USB device

- Intended for multiple users and mobile use – plug into the workstation's USB and go
- Includes unlimited updates to new compiler versions without the need for HPA (perpetual license)
- One dongle license is needed for each compiler type – MPLAB XC8, MPLAB XC16 and MPLAB XC32/XC32++.

Replaceable for a fee – **only dongle licenses that have been registered in a my Software account are eligible**

- Register your dongle here: www.microchip.com/mysoftware
- Replacements can be obtained through Technical Support and can only be replaced once

For more information and documentation, go to: www.microchip.com/mplabxc.
