

Plastic Garden Lamp Model: PEL00826

Please read these instructions carefully before use and retain for future reference.

IMPORTANT SAFETY INFORMATION

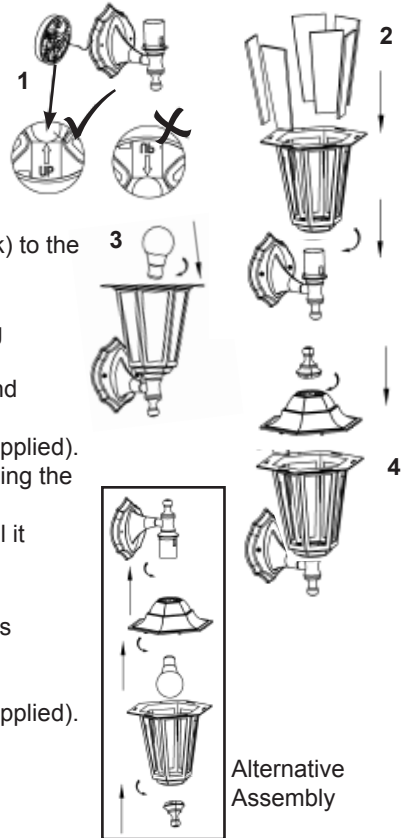

- When using electrical appliances basic safety precautions should always be followed.
- Check that the voltage indicated on the rating plate corresponds with that of the local network before connecting the appliance to the mains power supply.

Safety Information for Installation and Operation

- Avoid excessive force when installing.
- Always install on a surface that can support the weight of the fixture.

INSTALLATION

- Turn off or isolate the mains supply.
- Feed the supply wiring through a suitable access point in the base plate.
- Mount the product base onto the wall using a suitable mounting method ensuring the directional marking UP is followed.
- Connect the positive supply wire (brown or red) to the terminal marked L.
- Connect the neutral supply wire (blue or black) to the terminal marked N.
- Fit the main assembly onto the base.
- Assemble the diffuser by sliding in the glazing sheets.
- Attach the diffuser by sliding it into position and turning it to locate securely.
- Fit an appropriate lamp E27 Max 11W (not supplied).
- Attach the capping onto the diffuser by engaging the lugs and turn it to locate securely.
- Fit the finial onto the capping by turning it until it locks into place.
- Restore the mains supply.

Note: the light fitting can be assembled inverted as required.

- Attach the capping to the main assembly
- Fit an appropriate lamp E27 Max 11W (not supplied).
- Assemble the diffuser and fit to the capping.
- Fit the finial to the bottom of the diffuser.
- Restore the mains supply.

CLEANING AND MAINTENANCE

- Clean only with a soft, dry cloth. Do not use any chemicals, abrasives or solvents that may damage the product.

SPECIFICATIONS

Voltage	220-240V~50Hz <input type="checkbox"/>
