- L-keys for hexagonal socket screws
- Hex-Plus allows socket head screws to live longer
- BlackLaser for high corrosion protection and long service life
- L-keys are quickly to hand thanks to their size markings
- Wear-resistant clip material for enhanced durability

High quality L-key set for imperial hexagonal socket screws in a practical clip fastener out of wear-resistant material, enabling secure storage of the L-keys as well as simple removal. Hex-Plus profile: offers a larger contact surface within the screw head. This reduces the notching effects to a minimum and almost completely eliminates the risk of destroying the screw recess. The ball-end on the long arm allows for reliable working even in difficult installation situations. The BlackLaser surface treatment provides outstanding surface protection, even against corrosion, and a long service life. The tools are quickly to hand thanks to the laser-engraved and thereby wear-resistant size markings on the L-keys.
