PCN# 20180110006A
Add Cu as Alternative Wire Base Metal for Selected Device(s)
Change Notification / Sample Request

Date: February 28, 2018
To: PREMIER FARNELL PCN

Dear Customer:

Revision A is to announce the addition of new devices that were not included on the original PCN notification.

This is an announcement of a change to a device that is currently offered by Texas Instruments. The details of this change are on the following pages.

We request you acknowledge receipt of this notification within **30** days of the date of this notice. Lack of acknowledgement of this notice within 30 days constitutes acceptance of the change. If you require samples or additional data to support your evaluation, please request within 30 days.

The proposed first ship date is indicated on page 3 of this notification, unless customer agreement has been reached on an earlier implementation of the change.

This notice does not change the end-of-life status of any product. Should product affected be on a previously issued product withdrawal/discontinuance notice, this notification does not extend the life of that product or change the life time buy offering/discontinuance plan.

For questions regarding this notice, contact your local Field Sales Representative or the PCN Manager (PCN_ww_admin_team@list.ti.com).

Sincerely,

PCN Team
SC Business Services

20180110006A
Attachment: 1

Products Affected:

The devices listed on this page are a subset of the complete list of affected devices. According to our records, these are the devices that you have purchased within the past twenty-four (24) months. The corresponding customer part number is also listed, if available.

DEVICE	CUSTOMER PART NUMBER
TFP101APZP	null
TFP401APZP	null
TFP401PZP	null
TFP403PZP	null

Technical details of this Product Change follow on the next page(s).

PCN Details																									
Description of Change:																									
<p>Revision A is to announce the <u>addition</u> of new devices that were not included on the original PCN notification. These new devices are under Group 2 in the product affected section below. The expected first shipment date for these new devices will be 90 days from this notice for these newly added devices only.</p> <p>Texas Instruments is pleased to announce the qualification of new assembly material set to add Cu as an additional bond wire option for devices listed in "Product affected" section below. Devices will remain in current assembly facility and piece part changes as follows:</p> <p>Group 1:</p> <table border="1"> <thead> <tr> <th>Material</th> <th>Current</th> <th>Proposed</th> </tr> </thead> <tbody> <tr> <td>Wire</td> <td>Au</td> <td>Cu</td> </tr> </tbody> </table> <p>Group 2:</p> <table border="1"> <thead> <tr> <th>Material</th> <th>Current</th> <th>Proposed</th> </tr> </thead> <tbody> <tr> <td>Wire</td> <td>Au</td> <td>Cu</td> </tr> <tr> <td>Mount Compound</td> <td>4042504</td> <td>4208458</td> </tr> <tr> <td>Leadframe finish</td> <td>NiPdAu</td> <td>Roughened NiPdAu</td> </tr> </tbody> </table>								Material	Current	Proposed	Wire	Au	Cu	Material	Current	Proposed	Wire	Au	Cu	Mount Compound	4042504	4208458	Leadframe finish	NiPdAu	Roughened NiPdAu
Material	Current	Proposed																							
Wire	Au	Cu																							
Material	Current	Proposed																							
Wire	Au	Cu																							
Mount Compound	4042504	4208458																							
Leadframe finish	NiPdAu	Roughened NiPdAu																							
Reason for Change:																									
<p>Continuity of supply.</p> <ol style="list-style-type: none"> 1) To align with world technology trends and use wiring with enhanced mechanical and electrical properties 2) Maximize flexibility within our Assembly/Test production sites. 3) Cu is easier to obtain and stock 																									
Anticipated impact on Material Declaration																									
<input type="checkbox"/>	No Impact to the Material Declaration		<input checked="" type="checkbox"/>	Material Declarations or Product Content reports are driven from production data and will be available following the production release. Upon production release the revised reports can be obtained from the TI Eco-Info website . There is no impact to the material meeting current regulatory compliance requirements with this PCN change.																					
Anticipated impact on Fit, Form, Function, Quality or Reliability (positive / negative):																									

None.			
Changes to product identification resulting from this PCN:			
None.
