

Light is OSRAM

15.03.2018

OS-IN-2018-009

Introduction of clear cover tape for OSRAM detector products

Objective	Change from milky to clear cover tape
Products affected	SFH 7071, BPW34S, BP104BS
Background	Harmonization of cover tapes in use at OSRAM OS. Clear cover tape already used for the majority of products
Realization	 The image shows two rows of electronic components, likely detector modules, arranged in a grid. The top row is labeled 'Milky Cover tape' in red text, showing components with a white, opaque covering. The bottom row is labeled 'Clear Cover tape' in red text, showing components with a transparent, clear covering. The components are mounted on a dark, possibly black, printed circuit board (PCB).
Time Schedule	Clear cover tape will be used for material after DC 18/14
Assessment	Fit, form, function and reliability of the device is not affected.

Please direct your inquiry to your local Sales office.
