Quality Baying for Networking & Telecommunications Cabinets

Looking to securely and professionally configure your LMS Data floor-standing enclosures quickly and efficiently?

The LMS Data **CAB-BYKT-FE** is a low-cost baying kit assembly which clips and secures LMS Data floor cabinets including telecom and server styles allowing side-by-side positioning of the cabinets for either aesthetic or installation applications.

Comprising of x4, high-quality alloy fixings that simply 'clamp' to the sub-frame and as a result producing a rigid, all-in-one sub frame spanning two or more floor cabinets.

specifications:

Quality Alloy attachment clamps (x4)

Internal clamp width: 2.7cm (approx)

Ideal for LMS Data floor-cabinet series*

No tools needed - simply push into position

Secure on each sub-frame - min 2 cabinets needed

Low-cost option for achieving larger rack space

enclosures - power distribution - cabling

* If in doubt check with your cabinet vendor
