

CL30XC

For Indoor Use

The CL30XC is ideal for spot cooling in any home or office. Honeywell evaporative coolers do not require power hungry components like compressors. The CL30XC consumes only 123 watts* of power. This low power consumption translates into significant savings on energy bills compared to using air conditioners. Three fan speeds and oscillating louvers improve air circulation and provide an even distribution of cool air for rooms up to 320 sq. ft.*.

The CL30XC includes an automatic off timer for even more energy savings. The LCD control panel is easy to use and the remote control lets you operate your cooler from across the room. Plus, this lightweight unit has side handles and four durable caster wheels allowing easy mobility from room to room.

Product Dimensions (in): 18 (W) 13.8 (D) 33.7 (H)
Net Weight: 11.2 kg / 24.7 lbs

FEATURES & BENEFITS

Low Power Consumption
123 Watts*

Water Capacity
30 L**

Cools Up To
30 m² (320 ft²)*

Powerful Air Flow
770 m³/hr (453 CFM)*

3 Speeds:
High / Medium / Low

Low Water Alarm

Ice Compartment For
Faster Cooling

Adjustable
Humidification Level

Honeycomb
Cooling Media and
Carbon-Dust Filter

Detachable Water Tank
