

Socket & See SOK22 Craftsman Socket Tester

Description

The Socket & See SOK22 is designed to give a quick & easy indication of correct wiring at the socket. Particular emphasis is placed on detecting very dangerous wiring conditions such as reversed live earth connections & disconnected wires.

Features of the SOK22

- Continuous audible tone gives positive good wiring indication
- Strong warbling tone gives clear warning of faulty wiring
- Advanced electronics include a quad comparator to give clear indication even on noisy circuits
- Detects good plus 13 wiring fault conditions

Specifications

Power Supply	230V
Input Current	<math><18\text{mA}</math>
Frequency	50Hz

Temperature	0 - 40°C
Humidity	<95% non-condensing
Safety Compliance	BSEN 61010-1
Duty Cycle	Non Continuous, < 2min
	Double Insulated Construction
	Recycle as Electrical Waste
	Conforms to EU Standards

What's Included?

- Socket & See SOK22

Order Code: **SOC/SOK22**
