Socket & See SOK32  
Professional Socket Tester

Description

The Socket & See SOK32 is designed to give a quick & easy indication of correct wiring at the socket. Particular emphasis is placed on detecting very dangerous wiring conditions such as reversed live earth connections & disconnected wires.

Features of the SOK32

- The first socket tester to show where the actual fault is - Live, Earth or Neutral
- New patented ‘Fault Locate’ electronics gives clearest indication yet of 18 wiring fault conditions
- Continuous or strong warbling tone gives positive quick indication of good of faulty wiring
- Built-in self-check at start of testing gives confidence in correct operation at all times
