

Alarm starter kit

MAKE YOUR HOME SMART AND SECURE

Thanks to the EZVIZ Alarm Kit, your home is optimally protected. It offers safety, security and emergency features, and is very easy to set up. The Kit includes a hub, a remote controller, a wireless pet-immune sensor, and a door and window sensor. You can monitor and control your home thanks to the EZVIZ app. The app will also send you a notification whenever something irregular is detected.

ezviz

Video Security For Your Smart Life

HIGHLIGHTS

The heart of your security

The A1 is a wireless security hub connected to Wi-Fi and up to 32 sensors.

Your first line of defence

The T6 is a door and window sensor that keeps people out.

Dogs and cats allowed

The T1C is a wireless motion sensor that recognizes your pets up to 25kg.

Choose the mode of your home

Tell the system whether you're home, away or sleeping via K2 remote controller.

Works with the T9 Siren

Combine your alarm kit with the wireless indoor siren for extra security.

Integrated EZVIZ solution

The sensors can be connected to EZVIZ cameras.

Always in control

Receive an instant notification whenever a sensor is triggered.

Easy-to-use app

Crisp layout, user-friendly features.

ABOUT EZVIZ

EZVIZ helps you app your life. Right from the palm your hand, you connect visually to your home or your work. Welcome to the smart home and business!

FEATURES

WIRELESS SECURITY HUB

The A1 is very easy to install. It connects to your Wi-Fi and allows you to monitor and control up to 32 sensors via the app on your phone.

VOICE BROADCAST

The A1 supports voice broadcast. It guides you through the steps when you add a new device or sends a voice broadcast in case of an emergency.

WHEREVER YOU WANT

The sensors and remote controller are battery-powered and connect wirelessly to the A1. Thanks to these clever features, you can install the sensors wherever you want them.

SWITCH TO THE RIGHT MODE

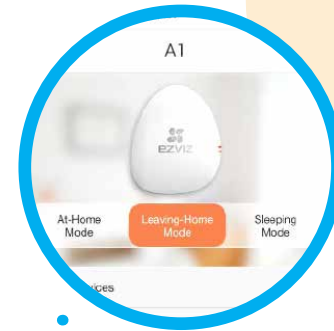

The K2, the remote control for the A1, allows you to select different modes – at home, leaving home or sleeping. Each mode activates the right devices.

EMERGENCY BUTTON

The K2 has an emergency button, which triggers emergency notifications to the app on your phone.

STATE-OF-THE-ART MOTION DETECTION

The T1C is a PIR sensor. It detects infrared wavelengths from people or moving objects. Passive Infrared (PIR) motion detection gives you a higher level of accuracy.

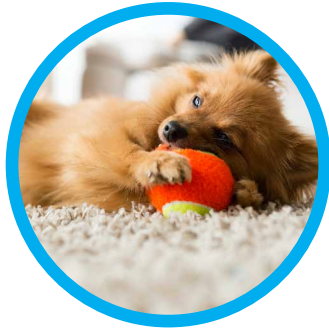

FEATURES

PETS ALLOWED

The T1C is a wireless PIR sensor that recognizes pets up to 25 kg. When they pass the coverage area, the alarm won't be triggered.

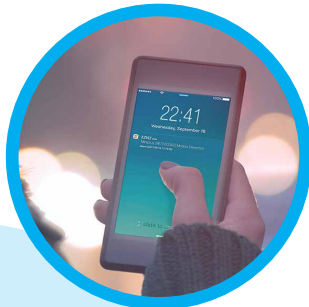

DOORS AND WINDOWS: SECURE!

The T6 sensors are triggered when a door or window is opened (angle +3°). The rechargeable batteries last up to six months.

ALWAYS UP-TO-DATE

Whenever the sensors are triggered, you get an instant notification on your phone.

WORKS WITH THE EZVIZ SIREN

You can connect the sensors to a sound and light siren.

INTEGRATED EZVIZ SOLUTION

The sensors can be connected to EZVIZ cameras. All-round security at your fingertips.

ONE APP DOES ALL THE WORK

You can connect all your devices on one and the same app. The EZVIZ app is easy to use and allows you to view four live video streams at once, if you have cameras.
