

## 392 Bitholding screwdriver with flexible shaft, 1/4 inch x 177 mm

### Bitholding Screwdrivers and Adaptors

<b>EAN/GTIN:</b>	4013288041418	<b>Dimension:</b>	275x33x33 mm
<b>Part no.:</b>	05028160001	<b>Weight:</b>	129 g
<b>Article no.:</b>	392	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82054000

- Bit holder with flexible shaft and quick-release chuck
- Multi-component Kraftform handle for fast and ergonomic screwdriving
- Hexagonal anti-roll feature against rolling away
- Flexible, circular blade
- For bits with 1/4" hexagon head drive

High quality bit holder with flexible shaft by Wera. Multi-component Kraftform handle for high working speeds and particularly ergonomic screwdriving. Kraftform Plus: hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. Comes with quick-release chuck for rapid bit change and hexagonal anti-roll feature that prevents any rolling away. Suitable for the insertion of bits with 1/4" hexagon head drive as per DIN ISO 1173-C 6.3.

Bitholding Screwdrivers and Adaptors

Flexible shaft

Screwdriving can also be achieved “around the corner” with the screwdriver 391. The flexible shaft allows unfavourably-positioned screw fastenings to be reached. The ideal tool for difficult-to-access screwdriving applications e.g. in the engine compartment of a car.

Kraftform

The basic idea for the prototype of the Kraftform handle – that the hand should dictate the design – has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraftform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.
