

CNE-CCA04

Dual USB Car Charger, 2.4A

This reliable charger with dual USB allows to charge 2 devices at the same time in a car. Although it has 2.4 A electric current output, its smart system identifies level of amperage of a connected device and provides optimal charge. Black rubber coating is pleasant to touch and perfectly fits with interior of your car. A great choice for those who charge multiple devices in a car.
