

PROAMP™ Crimp Tool

P/N multiple

The PROAMP Crimp Tool is the professional's choice for terminating AMP-style modular plugs! Never again will you be without the right cutter, stripper and crimp tool when you need it. This crimper's design assures consistent, repeatable terminations every time for high performance installations demanding quality and integrity.

- Crimp AMP-style RJ45, RJ11 and RJ12 modular plugs with a single tool.
- Cuts and strips Cat5e, Cat5 and Cat6 cables.
- High leverage, ultra stable platform.
- Zero flex frame prevents torque loss during the crimp cycle.
- Integrated die head assembly provides 360° of connector support during the crimp cycle.
- Expanded surface area on contact drivers delivers full, uniform crimp force.
- Built-in cutter and cable jacket strippers for round and flat cables and cutter.
- Die head assembly manufactured from tool steel.
- Every termination will meet FCC requirements.

Application

- Terminates AMP-style RJ45, RJ11 and RJ12 modular plugs
- Cuts and strips Cat5, Cat5e and Cat6 cables
- Not for use with WE/SS style modular plugs
