## G6K-RF High Frequency Signal relay - Product marking method

In an effort to enhance visibility and readability of product marking, Omron will change the G6K(U)-2F-RF(-S, -T) marking method effective as of our production in January 2019. This modification notice will explain the changes to the corresponding models. These changes will not alter the technical specifications or external dimensions of the relay. The models to be affected include, but are not limited to the models listed below; should you have any additional questions, however, please communicate with the Relay Product Manager.

### Effective Date:

Effective as of our production in **January 2019**
