

Product data sheet

Description: Modelcraft Multi-Function Engineering Precision Lubricator

Product Code: POL1201

Product details:

The superfine applicator delivers oil exactly where it is needed with pinpoint accuracy and ease. The Multifunction precision allows the oil to reach into awkward parts. The clean tip system with non-drip valve inside plastic end, prevents leakage when not in use. Light pressure will give one drop, whilst constant pressure will allow oil to flow. The metal tip is protected by oil proof gasket in cap. Ideal for hinges, locks, garage doors, lawn mowers, chains, models etc.

Features & Benefits:

- Clean tip system with non-drip valve
- Pinpoint lubrication
- For bikes, garage door, models, lawn mowers etc.
