

LF-852D

SMD Hot Air Rework Station 600W

The Xytronic LF-852D hot air SMD rework station has a built-in intelligent microcomputer chip and is specially designed for rework of lead-free SMD chips

Input	220 to 240V AC 50Hz
Power rating	600W
Pump	Diaphragm type
Air flow	1.5 to 40L/Min.
Temperature range	100 to 480°C (212 to 896°F)
Dimensions	283 x 120 x 190mm
Fuse	5A fast blow
