

SIT STANDS

Experience the freedom of movement with supported standing

If you have to sit, stand, or change position often, our Sit Stands promote "dynamic" standing for a variety of work environments. Sit Stands take the weight off legs and the angle of the seat opens hips to improve blood circulation while maintaining the back's natural alignment. Sit Stands provide a sustainable, comfortable working posture similar to standing without the undue stress on the body.

Sit Stands are not intended as a place to sit for extended periods of time, but rather provide an opportunity to experience periods of relief while maintaining high levels of productivity and encouraging a healthy work environment.

SIT STANDS

SIT STAND SERIES
