

UBER PA

50-WATT PORTABLE RECHARGEABLE BLUETOOTH® PA SYSTEM

Alto Professional Uber PA Complete Portable PA System with Rechargeable Battery

Uber PA is a self-powered portable wireless PA system with Bluetooth® technology. It's the perfect solution for delivering hours of clear, punchy, high-fidelity sound from a wide variety of wireless or hard-wired signal sources, whether you have access to AC power or not. Uber PA is perfect for outdoor weddings and business meetings, backyard parties, award/graduation ceremonies or singers/small musical ensembles. No AC power is no problem for Uber PA.

The unit features two input channels, each with its own independent volume control. You can stream music wirelessly from any Bluetooth-enabled device, and there is a convenient USB charging port to keep your phone ready to go. With 50 watts of peak power driving a high-quality 6 ½-inch 2-way speaker and a long-lasting 50-hour rechargeable battery, Uber PA is ready to take on any challenge.
