
QUICK3104 LEAD FREE SOLDERING STATION

Features:

1. Heat-resistant and long lifetime heating element.
2. Rapid heating and thermal recovery, precise and stable temperature control.
3. Various long lifetime soldering tips available, easy for using.
4. Light soldering iron, comfortable for using.
5. New appearance, stable structure.

Specification:

Model	3104
Display	LCD
Power consumption	80W
Temperature range	100°C ~450°C (As per working modes)
Temperature stability	±2°C (Stationary air, no load)
Ambient	40°C
Tip to ground potential	< 2mV
Tip to ground resistance	< 2Ω
Dimension	83(W)×125(H)×140(L)mm
Weight	1.38KG
