

# Kraftform Kompakt 100, 52 pieces

Innovations and Autumn/Winter Campaign 2017/2018

**EAN:** 4013288179968  
**Part number:** 05057460001  
**Article number:** Kraftform Kompakt 100

**Size:** 155x105x55 mm  
**Weight:** 640 g  
**Country of origin:** CZ  
**Customs tariff number:** 82079030

- Robust surface-protecting, compact, textile box
- Rapidaptor technology for rapid bit change
- BiTorsion bits in a length of 25 mm for long service life
- Impaktor bits in a length of 50 mm for particularly demanding jobs
- L-keys with Hex-Plus profile (prevents the rounding of hexagon socket screws)

52-piece; in surface-protecting, compact textile box which is extremely robust. Low volume and weight for simplified mobility. Compact tool set with 52 screwdriving tools. 1 bit holder Rapidaptor with quick-release chuck; 1 B bit holder Rapidaptor with quick-release chuck for take-up in the power screwdriver or use in the chuck of the power drill; 30 BiTorsion bits with a length of 25 mm for long service life, tough-absorbing (BTZ), for universal use, extra hard (BTH), 12 Impaktor bits with a length of 50 mm for particularly demanding jobs, 8 L-keys with Hex-Plus profile (prevents the rounding of socket head screws) and hexagonal ballpoint on the long arm for working at angles; textile box that is very robust and durable; can be positioned upright for tidy storage on the workshop shelf; additional surface protection thanks to the outer textile material.

**Impaktor Bits**

Impact bits are needed when a strong power tool is used. Impact bits were specifically developed to withstand high power tool forces.

**BTH- and BTZ-Bits**

BTH- (extra-hard) and BTZ- (tough) bits have an additional tempered BiTorsion zone, which reduces the hardness of the shaft by about 20 % in comparison to the drive tip. This means that the peak loads that cause bit breakage and premature wear are absorbed in this zone – something which enhances the service life of the bits.

**“Take it easy” tool finder**

“Take it easy” tool finder with colour coding according to profiles and size stamp – for simple and rapid accessing of the required tool.

**Rapidaptor holder**

Rapid bit change without needing any additional tools. One-hand operation with a freely spinning sleeve for simplified guidance of the tool. Also available in a BiTorsion design.

**Chuck-all**

The Rapidaptor quick-release chucks hold ¼" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

**Surface protection**

Chrome-plated hexagon L-keys for outstanding surface protection and long service life. High corrosion protection.

**Hex-Plus**

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

**Textile boxes**

The textile boxes offer dramatically improved portability, and are space-saving to boot! This means you can now carry the same collection of tools, in a much more compact and comfortable package. The hassle of running back and forth for the right tools has now become a thing of the past. And the much lower weight of a set makes carrying more convenient than ever before. The textile box including the tool will even survive a fall undamaged.
