

Bit-Safe 61 Universal 1, 61 pieces

Bit-Checks / Bit-Safes Universal

TORSION

HEX-PLUS

RAPIDAPTOR
TECHNOLOGY

WERA 260
COMPATIBLE

EAN:	4013288100689	Size:	185x115x35 mm
Part number:	05057122001	Weight:	538 g
Article number:	Bit-Safe 61 Universal 1	Country of origin:	CZ
		Customs tariff number:	82079030

- The Bit-Safes in textile box convince due to their functionality in a minimum of space
- Universal holder with strong permanent magnet and quick-release chuck
- Torsion design against premature wear
- Bit-Safe plastic material ensures robustness and durability
- 61-piece

Comprehensive 61-piece bit set by Wera in a robust Bit-Safe. Provides a quick overview of the tools available and bits not needed are simply reinserted into the set and do not get lost. 1 universal holder with Rapidaptor technology: allows bits to be attached without any need to actuate the sleeve. The removal of the bit is simple, just by pushing the sleeve forward – for rapid bit change with just one hand. The strong permanent magnet holds the bits absolutely securely. Can be inserted in the power screwdriver or for use in the chuck of the electric drill.

05056325001 2 x 5.0x25

Bit-Safe

The new Bit-Safes provide users with comprehensive bit and holder ranges in a surface-protecting, compact textile box.

TZ-Bits

TZ-Bits are tough viscous bits with a torsion zone. Torsion bits absorb the damaging peak torque loads in the torsion zone. This prevents premature wear and enhances the service life of the bits.

Rapidaptor holder

Rapid bit change without needing any additional tools. One-hand operation with a freely spinning sleeve for simplified guidance of the tool. Also available in a BitTorsion design.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

Magnetic

Bitholders, magnetic, for easier application of the screw.

Chuck-all

The Rapidaptor quick-release chucks hold ¼" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Single-hand function

Every function of the Rapidator quick-release chuck, such as inserting or releasing bits, can be carried out with one hand. This is faster, more economical and more ergonomic. There are no unnecessary manoeuvres.
