Bit-Checks / Bit-Safes Universal

EAN: 4013288033734 **Size:** 69x64x14 mm

Part number:05056157001Weight:69 gArticle number:Bit-Check 7 PZ Universal 2Country of origin:CZ

Customs tariff 82079030

number:

• Upright positionable Bit-Checks convince due to their functionality in a minimum of space

- Universal holder with quick-release chuck for rapid bit change
- Torsion design against premature wear
- · Extra-hard bits
- In handy and robust Bit-Check

Robust Bit-Check by Wera. Bit-Checks provide a quick overview of the tools available. Bits not needed are simply reinserted into the set and do not get lost. Simple transportation e.g. in the shirt pocket. Includes universal holder for the take-up of bits with ¼" hexagon head drive as per DIN ISO 1173-C 6.3. Quick-release chuck for rapid bit change and the strong magnet holds the bits absolutely securely. Comes with Torsion bits to combat premature wear; extra-hard.

At the workplace

The Bit-Checks can be positioned

upright at the workplace so the

tool is always quickly to hand.

TH-Bits

TH-Bits are hard bits with a torsion zone. Torsion bits absorb the damaging peak torque loads in the torsion zone. This prevents premature wear and enhances the

service life of the bits.

For a firm, wobble-free connection between holder and bit with quickrelease action. Simply push sleeve forward to change bits. The magnetic design enables simplified positioning of the screw.

Bit Ranges

We have had bit ranges in our programme for many years now. In 2016, we put a question mark against everything and came up with a game changer. We wanted bit ranges with bits whose profiles and sizes could be more easily recognised. We wanted bit ranges that were as compact as possible and which were Wera-like at a first glance. We wanted bit ranges with bits that could be removed and reinserted more easily. We wanted bit ranges with as little weight as possible. The new multicomponent Bit-Checks satisfy these requirements; the soft material in the lower section of the Bit-Checks ensures that the bits are firmly held yet easy to remove.
