

CAB-MAN-2U-10

2U Rack-mount
Super-wide 4-Ring
Cable Management

Quality Cable Management Solutions For Cabinets

Need effective cabling routing within your data cabinet or enclosure?
Need to maintain effective post installation maintenance of networking or PBX patching?

The new super-wide

CAB-MAN-2U-10 is a quality, alloy manufactured 4-ring cable management panel, 2U in height but unique in that it features larger, 8.5cm aperture and 10cm high, alloy management rings. Ideal for higher density cables, STP cables or indeed broadcast and RF coax cables as well as larger industrial and HT cables that need correct routing.

Fit between patching panels, network switches or any other device that has multiple ports and thus multiple patch routing, it will help tidy up almost all enclosure installations and make post-maintenance task much easier.

specifications:

2U, 4-Ring, 19-inch Cable Management Panel

Super-wide 8.5cm, 10cm aperture sized alloy ring design

Quality, alloy constructed, powder coated design

Ideal for effective post-installation patching cable routing

Helps keep switch ports clear and identifiable

Perfect for wall, telecom, data and server enclosures
