

# GT Pro™ DryChannel

**GaffGun™ DryChannel™ tape is sticky where it matters.**

Available as an optional feature for GT Pro™ tapes, DryChannel™ tape has a center zone of deadened adhesive that leaves little-to-no residue on cables after tape is removed.

GT Pro with DryChannel is everything you love about GT Pro™, with the added benefit of clean cables when your job is finished. Tape should stick to flooring, not cables! With DryChannel™ technology, that can be your worksite reality.

*GT Pro™ is a matte cloth tape with a rubber-based adhesive system. Its high-strength, high-performance qualities makes it an excellent all-around tape for use in any application where cables are being secured to a floor.*

## **Specs:**
