

335/350/355/3 Screwdriver set Kraftform Plus with holding function and 300 mm-long blades, 3 pieces
Kraftform Plus – Series 300

EAN: 4013288120991
Part number: 05347735002
Article number: 335/350/355/3

Size: 420x81x42 mm
Weight: 462 g
Country of origin: CZ
Customs tariff number: 82054000

- Screwdrivers for slotted and cross-recess Phillips and Pozidriv screws
- Multi-component Kraftform handle for fast and ergonomic screwdriving
- Take it easy tool finder: colour coding according to profile and size
- Hexagonal anti-roll feature against rolling away
- Extra-long blade for low-lying working situations.

3-piece screwdriver set with Kraftform Plus handle for pleasant, ergonomic working that prevents blisters and calluses. Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. "Take it easy" Tool Finder with colour coding according to sizes. The hexagonal anti-roll feature prevents any bothersome rolling away at the workplace.

 1) without Lasertip

350 PH
 05008730001¹⁾ 1 x PH 2x300
 1) without Lasertip

355 PZ
 05009319001¹⁾ 1 x PZ 2x300
 1) without Lasertip

300 mm-long blades

Kraftform

Prevents hand injuries

Large contact area

Extra-long blade for low-lying working situations.

The basic idea for the prototype of the Kraftform handle – that the hand should dictate the design – has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraftform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.

The large contact area – with particularly high friction to the soft zones – results in high torque transfer without any bruising from the edges.

Rapid hand repositioning

The hard materials used for the handle ensure rapid hand repositioning without any danger of the skin “sticking” to the handle. The surrounding hard zones with large diameters glide like wheels across the hand.

“Take it easy” Toolfinder

Screwdrivers with “Take it easy” tool finder: colour coding according to profile and size stamp.

Non-roll feature

The hexagonal non-roll feature prevents any rolling away at the workplace.
