

## Description

The MC002962 Isopropyl Alcohol 70/30 is an electronics cleaner wipes. The liquid is fully miscible with water and a large variety of organic solvents, making it good at dissolving dirt, dust, greases, and light organic contaminants. It is quick drying relative to water, disinfects surfaces, and leaves no residue. As it dries, it gives off a light alcohol odour, which is not bothersome and serves as a cue to limit over-exposure due to poor ventilation.

## Applications and Usages

Since it is safe for paints, metals, and plastics, the wipe is widely used to clean a variety of electronic equipment and peripherals. Another use is to wash off harsh organic solvents like acetone that might damage the substrate surface.

## Features and Benefits

- Safely removes dust, dirt, and greases from electronics and peripherals
- 70/30 Isopropyl Alcohol blend
- Available in a tub wipe dispenser
- Suitable for Use in Food Facilities as a Non-Food Chemical
