1. Product Type, Customer/Murata/Alternative Part Numbers:

Product Type: IRA-E Series, IRS-B Series and Fresnel lens for these series
Please refer to the attached documents for detailed Part Numbers' information.

2. Reasons/Background:

To concentrate on promoting IRA-S series such as RFI improved high performance type, we decided to withdraw IRA-E Series, IRS-B(2nd SMD) series and Fresnel lens for these series.
1. **IRA-E series** has not been promoted for the past few years since we have new higher performance PIR sensor IRA-S series.
2. **IRS-B (2nd SMD) series** also has not been recommended due to disadvantage of noise against lead type for the past few years. Customer who requires small size sensor and who understands the noise demerit has adopted 2nd SMD series, however, the business volume of those customers were not large.
Classification I Discontinued (with alternative equivalents): IRA-E series and Fresnel Lens for IRA-E series
Classification II Discontinued (no replacements): IRS-B series and Fresnel Lens for SMD
Classification III Factory change (Japan to Thailand): Other Fresnel lens
