

## GLXD4R

### Wireless Receiver

Rack mountable receiver with removable antennas for exceptional audio and rock-solid performance in multi-system installations for house of worship, education and live music applications.

Use GLX-D® Advanced rack mount wireless systems for improved RF performance and seamless frequency management. With detachable antennas and rack hardware included, GLXD4R receivers quickly integrate [GLX-D Frequency Managers](#) and remote antenna accessories for rock-solid multi-system installations.

**Note:** When purchasing separate wireless components, please match their frequency bands to ensure proper system operation.
