Enabling Smart Technologies For Your Lifestyle

Waiting for that important delivery but you aren't at home? Want night and day security at your front door in all weathers?

The exciting Dynamode **SH-DB1608** is one of the latest in a line of Smart-Home devices, helping you get on with your busy lifestyle, either when you are at home or not.

Stylish and weatherproof in design, simply mount the doorbell on the door of your home, office or anywhere that needs security and you have freedom to accept visitors via your digital device. Record full-HD motion, night and day via its Infra Red PIR detector and communicate via integral, high-clarity 2-way voice communications.

Easy to setup and integrate with your existing Wireless LAN, the SH-DB1608 uses the latest battery chemistry and you can enjoy cable-free charging for around a month or more*
