## The Compact, USB-Powered, Phono-Jack Multimedia Speaker Kit

Looking for a compact, easily portable desktop stereo speaker kit that is both stylish and very cost-effective?

The new Compoint **SPK-USB-COMP** is an excitingly engineered desktop stereo speaker design that is powered by its integral USB port together with a separate, standard 3.5mm audio jack used on the vast majority of computers, audio centres and project computers.

Punching above its weight considering its small size, excellent sound reproduction and wide dynamic range means both leisure and business applications, including Skype(tm) sound better and produce a better multimedia experience no matter what system you use.

## specifications:
