Product data sheet
Subminiature connectors

Contacts: 5, cable plug connector, cable outlet 3.5-5mm

Area
M9 IP67 Series 712
Order number
99 0413 00 05

Contact arrangement

You can find the component part drawing and assembly instructions on the next page.

Technical data

General values
- Cable connector
- Connector design: cable
- Connector locking system: bolted
- Termination: solder
- Wire gauge (mm²): 0.25 mm²
- Wire gauge (AWG): 24
- Cable outlet: 3.5 - 5.0 mm
- Upper limit temperature: 85 °C
- Lower limit temperature: -40 °C

Electrical values
- Rated current (40 °C): 3 A
- Rated voltage: 125 V
- Rated impulse voltage: 1500 V
- Pollution degree: 1
- Overvoltage category: II
- Insulating material group: III
- Volume resistivity: ≤ 3 mΩ
- Insulation resistance: ≥ 10¹⁰Ω
- EMC compliance: Shielding is not possible
- Degree of protection: IP67
- Mechanical operation: > 500 Mating cycles

Material
- Contact material: CuZn (brass)
- Contact plating: Au (gold)
- Contact body material: PBT (UL 94 V-0)
- Housing material: PA/CuZn (Nickel-plated brass)

### Assembly instructions / Panel cut-out

1. Bend parts, eliminate cable, cut outer sheath, strip wire.

2. Fold sheath back, fit cable into cable diameter, solder wire with shield.

3. Cut off projecting shield wire, solder insert.

4. Insert remaining parts acc. to figure.

Security notices

The connector must not be connected or separated under load. Non-observance and incorrect use can result in personal injury.

The connectors are designed for use in plant, control system and electrical equipment. The end user is responsible for checking whether the connectors are suitable for use in other applications.

Connectors used in electrical circuits containing hazardous life parts must only be assembled and used by or under the supervision of persons with the requisite electrotechnical training, taking the applicable regulations and standards into account.

Connectors with degree of protection IP 67 and IP 68 are not suitable for use under water. When used outdoors, the connectors must be separately protected against corrosion. For further information about IP degrees of protection refer to ‘Technical support’ in the Download Centre.

To lock the cable connector to the equipment connector, the threaded ring is tightened until it is ‘finger-tight’ (approx. 50 cNm).
