

The Klein Tools Klein-Kurve Multi-Cable Cutter has a wide range of blades designed to cut different types of cable. The anvil cutter cuts 12 AWG copper wire and stainless steel up to 0.032" in diameter. The copper curved cutter cuts 8 AWG solid and 6 AWG stranded copper wire, conductors and coaxial cable. This tool also has a cutter for mild steel.

Specifications

Cutting Capacity:

Up to 12 AWG solid and stranded copper wire, up to 0.032" (.081 mm) diameter stainless steel, up to 1/2" (12.7 mm) multi-conductor cable, coaxial cable RG-6 Quad, RG-59 and RG-62

Application:

Cuts copper wire, stainless steel, conductors and coaxial cable

Screw Shearing:

6-32 and 8-32

Material:

Steel

Handle Colour:

Red

Overall Length:

7" (177.8 mm)

Weight:

0.44 lb (0.20 kg)
