

Trace wire paths and identify coax and twisted cables in common wiring systems with the Klein Tools TONEcube & PROBEplus cable-tracing probe. The kit includes a professional-series tone generator and tone tracer. The amplifier overload LED improves accuracy, warning against misreadings. Five discrete tracing tone sounds can be selected using a tone switch.

Specifications

Included:

VDV500-051, VDV500-060, Nylon Pouch

Weight:

1.0 lb (0.5 kg)
