

The Scout® Pro 2 LT Tester and Remote Kit is a versatile voice/data/video cable tester that locates and tests coax, data and telephone cables. The Test-n-Map™ Remote saves time by testing, mapping and identifying a location in a single step! In addition, you can measure cable runs and cable left in the box, as well as bill jobs more accurately. With this kit, you can ensure fast and accurate cable installations every time.

## Specifications
