

## FM/MP3 Player with USB and SD Reader - NDVA-1000

Compact MP3 Player with FM Tuner Compact device connects to any amplifier input and provides stereo FM as well as MP3 playback. Reads MP3 files directly from standard thumb drives or SD cards, and provides line level output via a rear panel 3.5mm jack. Great for use as a source on PA and other background music systems. Also ideal for direct connection of conventional amplified computer speakers. Note: Requires 12VDC, 150mA, adapter sold separately
