HARTING Product Change Notification

PCN

At this picture the improved unlocking area is shown in function with a screw driver to remove the DIN rail outlets from the DIN rail more easily compared to the old design.

All main dimensions are identical as the old design and in this way, we don't have any negative influence to any application.

3. Impact on product specification:

There is no impact to any existing application or change of the product specification.

4. Scheduled date of implementation:

The change will be implemented in Q3 2018. Please be aware that mixed deliveries (old and new design) might be possible for the first months.

5. Identification of change:

The revision level change to **R01**

6. Data sheet (optional):

No new [TB 0945 851 0000](#)
