

FSKL3RD

Field Service Kit

This Field Service Kit provides a complete portable static safe workstation for personnel working with electronics in the field. To stop static electricity from damaging electronic cards, a static safe work area is essential for Field Service Technicians performing in-field repair or installation of cards. SCC's field service kit is used by technicians in telecommunications, computer, industrial controls, and business equipment service applications. The entire kit folds to fit into most tool cases. Custom mat printing is available. Includes 24"x24" mat with 2 pockets, wrist strap, ground cord, and instructions.

Specifications
