For Quick Install

Quality, Low-Loss CCTV BNC/DC Shotgun-Style Cables

Want to quickly install, deploy or re-route your CCTV cameras, DVRs or other compatible equipment without the fuss of terminating BNC cables or running separate DC power?

Available in three (3) popular lengths of **18 metres**, **25 metres** and **50 metre** lengths allow anyone to quickly install common, BNC CCTV cameras without the expensive and time consuming terminating of plugs etc.

Using standard 75-Ohm coax and quality BNC, the shotgun cable has a dedicated cable which allows DC power to be fed to remote CCTV cameras, DVRs, set-top boxes and other compatible equipment for both retail and professional security and broadcast applications.

Weather-resistant, durable and of course lightweight and being a shotgun design means your just pulling one, low overall diameter cable which means a much reduce install time.

specifications:

Shotgun, dual cable for CCTV data and DC power

Available in 18, 25 and 50m pre terminated lengths*

Suitable for BNC connected CCTV, DVR, Set-top boxes

Massively reduces installation time

Black, weather resistant PVC with quality copper conductors

2.1mm centre positive DC power plugs installed

Overall Diameter (OD): 3.8mm approx* - Shielded Coax

Part Numbers:

C-BNC-18M	18-Metre Pre-Terminated
C-BNC-25M	25-Metre " "
C-BNC-50M	50-Metre " "
